

Hello Wind Supporters!

We hope you are staying safe and healthy in this unprecedented time. We at LuvSide want to give you a quick update of our progress and activities in the past couple of months. In short, we are still operating and working on making the planet cleaner, greener, and healthier thanks to our dedicated team.

## Up and Turning: LS Helix 3.0

Our next-generation Savonius vertical axis wind turbine, the LS Helix 3.0 model, was officially launched earlier this month. Two of the wind turbines are currently operating in [Ingolstadt, Bavaria](#) and [Itzehoe, Schleswig-Holstein](#) in Germany, supplying green energy respectively for the Ingolstadt Landesgartenschau Fair and our northern Germany distributor, Hans Otte.

### What comes with the LS Helix 3.0?

- ◆ Optimal power output at 3.0 kW
- ◆ Storm-Proof Quality
- ◆ Overload Safety Mechanism

## Online For You: New Website & The Windy Blog

After 4 months of redesign, we've launched our new website! Easier to navigate and bilingually presented in English and German, the new website provides comprehensive visual and written information about our company, our wind turbines, purchase, and partnership processes. The Windy Blog documents up-to-date knowledge and insights of vertical axis wind turbines in ways that your kids and grandparents can also understand.

Dive into the new website and discover how much you can learn in just a few short reads!
